MULTIPLICATION & DIVISION operational processes and problem solving

This 2 week workshop focuses on multiplication and division. Students will explore factors, determine the value of a number based on its place, and multiply and divide numbers using various strategies, while ensuring that they communicate their mathematical thinking. Students will also practice applying problem solving to scenarios involving multiplication and division.

MULTIPLICATION & DIVISION: OPERATIONAL PROCESSES AND PROBLEM SOLVING

Suggested for: students working at Grade 4-6 level

Duration: weekdays, July 20-31st

Time: 9:30am-10:00am

Includes: Daily virtual meetings and 1 weekly 1:1 meeting

Instructor: Ms. Peristeris

Cost: \$295

Vacancies: 8

ACADEMY

NARRATIVE WRITING setting, characters, problem, climax & solution

This 2 week workshop provides students with the structure to follow when writing a story (setting, characters, problem, climax, solution). Students will write a story, focusing on including all elements necessary, ensuring the information is presented in logic order, while practicing language conventions and grammar.

NARRATIVE WRITING: SETTING, CHARACTERS, PROBLEM, CLIMAX AND SOLUTION

Suggested for: students working at Grade 4-6 level

Duration: weekdays, July 6-17

Time: 9:30am-10:00am

Includes: Daily virtual meeting and 1 weekly 1:1 virtual meeting

Instructor: Ms. Peristeris

Cost: \$295

Vacancies: 8

FRACTIONS

operational processes and problem solving

This 2 week workshop focuses on operations involving fractions. Students will practice addition, subtraction, multiplication, and division of fractions, while they communicate their mathematical thinking orally, visually, and in writing. Students will also practice problem solving and will be provided with strategies and steps to follow when presented with word problems involving fractions.

FRACTIONS: OPERATIONAL PROCESSES AND PROBLEM SOLVING

Suggested for: students working at Grade 4-6 level

Duration: weekdays, August 4-14

Time: 9:30am-10:00am

Includes: Daily virtual meetings, and 1 weekly 1:1 meeting

Instructor: Ms. Peristeris

Cost: \$295

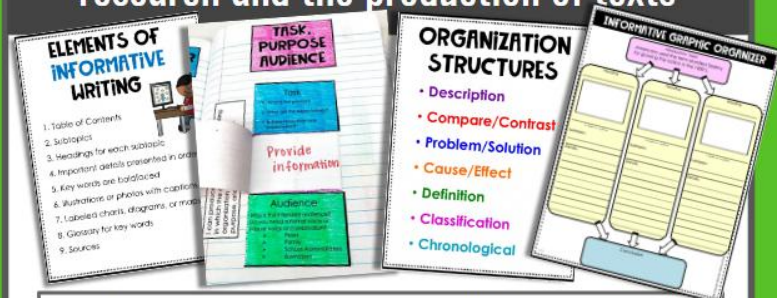

Vacancies: 8

INFORMATIVE WRITING

research and the production of texts

This 2 week workshop provides students with the structure to follow when writing an informative piece. Students will learn how to conduct research on a chosen topic, how to identify important information from the sources used, and how to organize the information in graphic organizers. Students will produce a research piece focusing on including all elements necessary, ensuring the information is presented in logic order, while practicing language conventions and grammar.

INFORMATIVE WRITING: RESEARCH AND THE PRODUCTION OF TEXTS

Suggested for: students working at Grade 4-6 level

Duration: weekdays, August 4-14

Time: 12:45pm-1:15pm

Includes: Daily virtual meetings, and 1 weekly 1:1 meeting

Instructor: Ms. Peristeris

Cost: \$295

Vacancies: 8

GUIDED DRAWING & SKETCHING TECHNIQUES

This 2 week workshop provides students with step by step instructions on how to compose realistic drawings of people and animals. Students will explore ratios and proportion, and learn to apply mathematical tools, like grids and scales, to depict realistic and accurate pencil representations of figures.

GUIDED DRAWING AND SKETCHING TECHNIQUES

Suggested for: students working at Grade 4-8 level

Duration: weekdays, July 20-31

Time: 2:00pm-2:30pm

Includes: Daily virtual meetings

Instructor: Ms. Kastner

Cost: \$295

Vacancies: 10

GUIDED DRAWING & SKETCHING TECHNIQUES PART 2

This 2 week workshop provides an introduction to sketching the human form beyond the face. Students will continue to apply observation techniques as well as mathematical tools like proportion, scale and ratios to create lifely depictions of hands, eyes and lips.

GUIDED DRAWING AND SKETCHING TECHNIQUES PART 2

Suggested for: students working at Grade 4-8 level

Duration: weekdays, August 4-14

Time: 2:00pm-2:30pm

Includes: Daily virtual

Instructor: Ms. Kastner

Cost: \$295

Vacancies: 10
